A smart blouse of natural color linen appears above. This for wear with a brown or tan coat suit would be charming. The long, close-fitting sleeve joins the blouse half way between elbow and shoulder, thus preserving the "in one" effect and long shoulder line without interfering with

the comfort of the sleeve. The blouse is closed invisibly on the left shoulder and down the left side with linen covered buttons. There is a shallow applied yoke of brown linen with lace yoke above, and pointed cuffs of the linen. The sleeves and bodice are heavily embroidered in merozerized cotton in shades of brown linen color, and here and there a touch of green.

A very effective gown is this, which offers opportunity for a display of hand embroidery on the sleeves and tuckers. The blouse and tunic were cut from gray blue cloth. The skirt and bands on blouse and sleeves, of self-tone velvet. The blouse closes on the left with three jeweled buttons,

smaller ones dotting the sleeve. The tucker is of white velvet, heavily embroidered in the blue of the gown. On the lower part of the sleeve just before it is gathered into the blue velvet band is a narrower band of white velvet, repeating the design of the tucker.

Nothing could be more richly beautiful than this afternoon gown of silvery gray moire. The bodice of the moire is cut away at the front, displaying a broad vest, the upper half of which is gray tulle net, the lower part of the same material, embroidered in gray. This embroidered net is

also used for the apron front on the skirt and appears where the goods are cut away on the sleeves. A dark velvet fills in the lower portion of the bodice and is used for the girdle and "ear" on the left. The tunic is of the moire falling over a plain skirt of the same.

EVENING CHAT

BY RUTH CAMERON.

In a book of essays that I was reading the other day this sentence smote me into thoughtfulness:

"How many, many homes there are from which gaiety has been banished not by sorrow but by grievances and complaints."

If I were a minister I think I should preach on that thought just about once a year.

I was talking with a young girl the other day who had just lost her sister.

It was the first death in a family of six.

"Do you know what one of the saddest thoughts is to me?" she said. "It's the thought that while we had each other, we weren't half so happy as we should have been. We let the most foolish little quarrels and grievances and troubles make us unhappy. Just think of it! When we had each other and ought to have been perfectly happy. It makes me fairly wild to think of it."

I wonder if there is anyone who after a loss does not think something like that. "Why wasn't I happier when I had so much to make me happy? Why did I let little things keep me from being happy?"

You people who have all your dear ones with you, who have one of those hearts where there is no "vacant chair" are you making the most of that great blessing?

Are you being as happy as you ought to be?

Are you letting "grievances and complaints" and other little troubles and annoyances mar that precious happiness?

Oh, this Christmas which has just passed you have a bitter, sweet memory of how "big brother" used to bring his presents down Christmas eve for mother to help him wrap them up, or how little sister did scream last year when she found it was actually a "real live gold ring," to saddle your day?

But are you as absolutely entirely happy as you should be? Or did you let some little misunderstanding, some foolish dissatisfaction taint that happiness?

Some day when there is a vacant chair will you have to say, "Oh, if I had only been happier when I could have!"

And then you people who have one or two vacant chairs, who can't be as cloudlessly happy as you used to be, are you being as happy as you can be with what you have left? You look back on "the day before" with longing. Do you realize that you may

sometime look back on these present days with equal longing? Are you making the most of them?

You don't like to be reminded of such dismal possibilities, you say.

Forgive me. I know it is time enough to feel sorrow when it comes.

But don't you think my suggestion is a wise one?

Mrs. Huston has been called to the western part of the state on account of the illness of relatives, and will, therefore, not be able to entertain the club. The subject for study at this meeting is "Kansas Authors."

This pretty frock of garnet cashmere is intended as a suggestion for a girl of 16 or 18 and, being simple in design and serviceable as to coloring, should prove excellent for general wear. The kimono blouse is girdled quite high with a broad belt of the material

and has a wide sailor collar of self-tone corded silk. There are deep cuffs and a tie of the same, and above the cuffs the skirt is held by four wide tucks of the material. The frock closes on the left with corded silk buttons. The skirt is scant with a side pleated flounce below the knees.

The Ideal History club will meet Friday, January 26, with Mrs. Ella Rice, 213 Topeka avenue. A full attendance is desired, as business of importance will be transacted.

The West Side Reading club will meet with Mrs. L. Wellman, Tuesday afternoon, January 17.

The Searchers club will meet Saturday, January 21, with Mrs. Lewis Harbough, 1020 West street, instead of with Mrs. Herron, as announced in the year book. Miss Donnell will read a paper on "The Royal House and Parliament of Austria."

Dr. Dora Wilson of Kansas City, Mo., was a guest at the Suffrage convention, Tuesday of this week. Dr. Wilson made a talk at the forenoon business meeting, stating that her purpose in coming to the convention was to get ideas and suggestions on the methods of the Equal Suffrage league of Kansas. She is a member of the Athenian club of Kansas City, the largest club in the city, with more than 700 members. The women of her club have gradually become interested in the movement for the enfranchisement of women, but there is no organization in Missouri for the promotion of the cause of suffrage, so it was Dr. Wilson's intention to carry back with her to her club a knowledge of the plans of the activities of the Kansas league. She will probably organize the women of her club with the intention of making that organization the nucleus of a state-wide society which will ultimately win what the Kansas women are striving for—the rights of citizenship, plain, everyday justice. One woman can effect that organization by winning the material which a club of 700 operated minded members furnish, success is assured.

The City federation is planning to have a meeting Thursday, February

2. The plans for the meeting are not completed, but an excellent program is expected, and the wives of the legislators will be asked to attend as guests of the federation.

A satin gown to which self-tone velvet is effectively added is pictured today. The satin was in a shade of dull green. Across the bodice and the top of the quaint old-fashioned sleeve was a broad band of darker-toned velvet. Just above the upper edge of this band was placed a row of tiny satin buttons.

while the bottom was finished with a green broad fringe. The girdle shows the tendency toward the old-fashioned rosette as a finish at the waist. The skirt has a tablier front on either side of which broad bands of velvet encircle the skirt.

The meeting of the Woman's Kansas Day club is attracting the attention of the club women at this time. The meeting is to take place Tuesday, January 31, at the Congregational church. At the luncheon which will begin at 1 o'clock on the day of the convention, covers will be laid for 200. A large number of women from out of town are expected, and the Lawrence women have reserved thirty places. Word has come from Marion, ordering fifteen plates for visitors from that town. Five state federation presidents will attend the meeting, namely: Mrs. W. A. Johnston, Mrs. J. C. McClintock, Mrs. J. C. Topeka, Mrs. May Belleville Brown, Mrs. Cora G. Lewis of Kingsley, and Mrs. C. C. Goddard of Leavenworth. Vance Humphrey of Junction City is also expected to be a guest.

The officers of the Equal Suffrage league report that one hundred new members have been added to their list during and just prior to the convention of this week. The bill for the amendment of the constitution will be presented to the legislature, and the suffragists are hopeful of winning this time. Kansas, if the bill is passed, will be the sixth state in the Union to grant the ballot to women, and as Mrs. Lee Monroe aptly put it, "it is to be hoped that the freedom, the peace, the justice, and the new world of foreigners will rally round and uphold the state pride."

Here is a true story which serves to illustrate one man's recognition of the responsibility of citizenship. A neighbor was talking to him on his views of the issues in the last presidential campaign, and his one complaint was, "You won't catch me voting around to vote for president; he wouldn't thank me if I did." Where is there a woman that could have a poorer idea of an American's privilege of sovereignty?

AUTO MEN PLAN CLUB.

Would Establish a Resort and Summer Cottages at Silver Lake.

With the organizing of the Silver Lake Commercial club for the purpose of boosting the town and making a summer resort of the place, it is not improbable that the Topeka Automobile club will renew their interest in the lake. At the fall meeting of the auto men here a proposition was discussed of buying land east of the lake, plotting and selling it for summer cottages. A committee was appointed to take up the matter, but so far nothing definite has been done. However, at the annual meeting which will likely be in the nature of a "smoker" in February, it is likely that this plan will be more fully considered.

The lake is two miles long and several hundred yards wide in the widest places, and is deep enough for motor boating. It also contains catfish, carp and other fish. It is eleven miles west of Topeka on the Union Pacific railroad, just south of the Silver Lake depot. Good graded roads connect Topeka with the lake.

Charles Williams of Silver Lake, who appeared before the club at its meeting last fall with the proposition described, owns considerable stock in the lake and land nearby, as well as in the island in the body of water.

W. W. Webb is president of the Topeka Automobile club. Chester Woodward is secretary. Mr. Woodward this morning admitted that the matter had been considered, but as far as he knew had not been acted upon. The club has about 300 members.

The members of the committee mentioned are George W. Stansfield, William Macferran, J. M. Kemper and Dr. Sam Lyman. Mr. Stansfield is the one of the most enthusiastic over the plan.

"It is a good proposition," said Mr. Stansfield this noon. "It is something that the boys will be crazy to get when it is too late, but so far they have let it drag. It could be handled similar to the Lake View resort, near Lawrence, which is controlled by Topeka and Lawrence men."

"Silver Lake would make an ideal summer resort. Now it is difficult to interest anyone in the project. We will have to wait until the weather is hot and the boys are out of school. If it is not unlikely, however, that the summer resort proposed may be taken up at our annual smoker, which will probably be held in February."

To Raise No Tobacco.

Lexington, Ky., Jan. 14.—Mass meetings are being held today in forty counties of Kentucky in which white burley tobacco is produced to vote on the question as to whether the 1911 crop shall be eliminated as provided for in resolutions adopted by the burley tobacco union at the time of its organization here last week. It is thought that the vote will be practically unanimous for abandonment of this year's crop.
